New message: Hello and thanks for purchasing one o...

New message from: **your\_part\_source** (24,039 )

Hello and thanks for purchasing one of our TIPM's! We wanted to let you know we will get the TIPM programmed and ready to configure to your vehicle before we ship it out. To do this we do not need any of your vehicle information so we will not need to bother you for more details! Instructions for the TIPM reconfiguration will be in the package, but we wanted to email them to you as well. Once you complete these steps you should be good to go.

Perform the following steps to configure the TIPM to your vehicle:

1. Disconnect battery from vehicle
2. Install TIPM. Make sure your fuse/relay set-up is identical to the original.
3. Connect battery to vehicle
4. Turn key to ON position only (do not start vehicle) for 15 seconds, then turn off.
5. Start vehicle and please confirm all the following functionality:

- Vehicle starts
- Power windows and locks
- Windshield wipers and washer fluid
- Air Conditioning
- Headlights

Please let us know if you have any issues once you get the TIPM installed. Also, make sure you are matching your part number per the listing description, this is very important! Thanks again for your business, we do appreciate it!
